Customer Reviews

I bought this product on after first seeing it in a store. I liked the ideas that the book provided, as well as the stencils I would not have to take the time to create. The downside to this book is that the stencils are very flimsy and fall apart after minimal use. After using one of them on only one small project I had to throw it out. The upside is that it does provide ideas for easy to make diy projects.

Lovely stencils, wish they weren't cardboard.

Good variety of stencils, although they are somewhat difficult to pull out of the book, & the stencils to a degree are small it's a an overall good buy though...

Okay, I made this purchase by mistake, and tried to cancel the order, but it was already on the way to my house so I waited. I have to say, this is the best ever purchase I have made in a long time. For all of you fashion-enthusiasts and creative types, this stunning book will bring out your inner creativity and more. You can combine the many stencils in any number of ways and you can even personalize them to suit any project. Great Job!
