Customer Reviews

The questions helped me focus on what I needed to say in the brief moments I had. Between this book and my wife's help recalling those truly positive and meaningful events of my daughters

younger life made it really easy to speak from the heart and get across what I need to say.

The book was generally useless, very poor examples and by no means worth the cost. Don't waste your time or money.

This is a helpful little document, not really a book, per se, more like a pamphlet. If you have a need, it can help to quickly remind you and straighten out your thinking so the result will be on target. I actually needed something to help pick out a reading for a wedding, not make a toast. This "book" settled some scattered thinking and made the activity more pleasant, as just reading through reminded me of pleasant thoughts about the bride and groom. The Kindle version has a bunch of worksheets which were of little value as I read it on my iPhone. They just repeated the text, potentially with space for your own thoughts. Fluff, padding.

Before reading it I was at panic stations!!!! After reading it.....bring it on, I can't wait. Just follow the instructions and bam! You're there.
