## **Customer Reviews**

'The Scottish-Irish Pub and Hearth Cookbook' by Scottish / American culinary writer, Kay Shaw

Nelson is another cookbook offering by the relatively low-priced, low profile publisher, Hippocrene Books, Inc. which has a large selection of cookbooks about many of the lesser world cuisines in 'The Hippocrene Cookbook Library' as well as several books on Scottish and Irish subjects. I have reviewed a few of these Hippocrene Books and compared to those offerings, this volume is superior to most, although it may not be the very best source for traditional Irish or Scottish recipes. On the other hand, I especially like this book for the fact that it seems to have very good versions of many recipes that may be so common that many flashier cookbooks may not even deign to cover them. My favorite here is the recipe for Scotch eggs, which recently came to fame as a dish prepared on 'Iron Chef America' by the 'Too Hot Tamales' (Mary Sue Milliken and Susan Feniger) in a battle against Bobby Flay. The recipe made such an impression that while I remember it, I don't remember the secret ingredient or who won the battle. I also like the fact that there is a much greater similarity between the two Celtic culinary cultures of Scotland and Ireland than there is between, for example the modern cuisines of Spain and Portugal, which some have lumped together. The biggest difference between the two may be the time at which each was influenced by contact with the French. For the Scottish, during the era of Catholic Mary, Queen of Scots, when Scotland and France were active allies against Protestant England.
