The Complete User's Guide To The Amazing Kindle (First Generation)

Synopsis

Stephen Windwalker's latest book is the premier Kindle 1 user's guide, packed with all the information you need to make a decision about whether to buy a Kindle and to get the most out of your Kindle when it arrives. Now approaching 30,000 copies sold, this book came out of nowhere to climb to the top of the Sales Rankings. 50,000 words, 160 "print" pages, and written in a clear, easy-to-understand format aimed at the serious readers who comprise the largest group of Kindle owners. See the complete table of contents at KindleUsers.blogspot.com.

Shipping Weight: 7.8 ounces (View shipping rates and policies)

Average Customer Review: 3.8 out of 5 starsÂ Â See all reviewsÂ (135 customer reviews)

Best Sellers Rank: #1,544,116 in Books (See Top 100 in Books) #74 inÂ Books > Computers & Technology > Software > Microsoft > Microsoft Outlook #120 inÂ Books > Computers & Technology > Mobile Phones, Tablets & E-Readers > Android #478 inÂ Books > Computers & Technology > Internet & Social Media > Blogging & Blogs

Customer Reviews

Informative and expanding, much information that an avid reader-turned-Kindle-reader might otherwise miss. Available elsewhere? Definitely, and those with an urge to tinker will find it. But if your focus is on the books and you are the sort who looks for answers in the user manual, then articles such as this are invaluable. This is the first review I have ever submitted to . Must admit that the electronic shouting matches that many of these review lists become puts me off. But the potential for a real paradigm shift in how we use, and value, "cyber access" exists here and the window won't likely stay open long. The more folks learn about the possibilities, the greater the push. Stephen Windwalker appears to be writing for the "typical Kindle buyer" who wants an electronic reader for the convenience of having a lot of books in a small, transportable package. Thoughts of expanded uses are not even entertained in many cases. Without articles like this to inform the conventional user of these possibilities, many will be happy, contented readers and never

know other capabilities exist. Kindle is a terrific way to read books. I started a skeptic, bought my wife one as a gift, and we now have a pair. (She offered to share but I knew she didn't really want to.) We are both voracious readers, several books a week when we aren't being consumed by one work crisis or another. While we both have the tech savvy to figure out anything that is discussed in this article, for a couple dollars we didn't have to. It came instantly to my Kindle at the push of a button. And that is the bottom line for me.
